Specialist equipment / camera hire will be charged in addition to the above if required for a particular shoot. Elaborate retouching will be charged by the hour if necessary to complete brief @ \$60 per hour

Formats & Delivery

I use professional-quality Nikon camera equipment and lenses and Apple Macintosh computers for post-processing. If larger formats are required, this can be organized. Images can be delivered on-line via a secure server or on DVD and come with an agreement to use the images, with no individual licensing fees. Images may be used in US marketing and promotional material commissioned by your company. This allows you to use the images on your website, brochures and other US promotional material on a perpetual basis without additional cost
